SUCCESS INDICATORS:

IUL is committed to the effective evaluation of its educational programs, its academic and administrative support services, and the use of assessment results for continuous improvement. Since the first Strategic Plan developed, the University has implemented a systematic, broad-based, and interrelated three-year cycle for strategic planning and evaluation processes that addresses the key components of educational activities – teaching, scholarship, professional development, and public service.

Through the strategic planning and institutional effectiveness processes, the University creates annual implementation plans for each program, academic and administrative department, with unique goals and/or unit outcomes that reflect IUL Strategic Goals and Initiatives and Mission Statement. The university progress toward fulfilling these goals and outcomes is then assessed via annual reports.
